ETERNEL SANS TEMPS DINING BLACK EDITION - BLACK OAK + PIANO LACQUER

ODE TO THE UNIVERSE

The objects express the timelessness of being. The flowing straight lines, the exquisite materials as well as the clean and outstanding proportions are an ode to the universe. They are at once monuments to our primordial past and ethereal dispatches from an innovative future bespeaking the circularity of time and the mysteries of the universe. The collection is an ode to the riches of the world we know and a portal to places we have yet to discover.

All materials are selected according to specific standards and only the best materials are used. The collection ranges from the rarest marbles to the finest European woods. All materials are hand selected.

Made by Ateliers Saint-Jacques. The Ateliers Saint-Jacques is a French company of high skilled craftsmen divided in four workshops: metal work and wrought iron, joinery and cabinet making, stone cutting and marble work, art foundry and sculpture restoration.
